

Dear Prospective General Donor List,

My name is Jordan Britenburg, a Life Scout in Boy Scout Troop 97 located in Anderson, South Carolina. As a hopeful Eagle Scout, I have proposed an Eagle Scout Service Project which will benefit the Meals on Wheels-Anderson. This organization is very important to my family and I since we have supported and volunteered for Meals on Wheels for nearly two decades. This organization has had a significant impact on the elderly and those incapable of providing food for themselves. It is my hope that this project will improve the functionality and safety of the Meals on Wheels-Anderson operation.

This project will consist of acquiring/building a new sign, installing flood lighting, and building benches to aid the primarily elderly citizens who volunteer. Due to this demographic, I have also chosen to provide an Automated External Defibrillator (AED) and training course for staff members in case of emergencies. These additions will also accommodate those groups which utilize the building as a meeting space. I am also planning to build an elevated herb garden to enhance meal preparation, which will assist in cost reduction and nutritional value of the meals.

It has recently come to my attention that in order to provide water for the majority of the plants, a new water system must be installed. I have been in contact with John Glenn, Sr. of Glenn Plumbing, and have received a verbal quote of \$550 to install two pipes down to the main water line, as well as back-float preventers. This amount was not within my original budget, and at the moment, I am trying to maintain spending funds. Therefore, it is my hope that the County will once again assist me by providing funds matching this expense. I apologize for requesting more money from you, but I do desperately need this water to be installed.

Thank you in advance for your donation and support of this great organization.

Yours in Scouting,

Jordan Britenburg

Dear «Neighborhood Prospective Donor Name»,

My name is Jordan Britenburg, a Life Scout in Boy Scout Troop 97 located in Anderson, South Carolina. I am also one of your Country Place neighbors, at 2802 Rambling Path. As a hopeful Eagle Scout, I have proposed an Eagle Scout Service Project which will benefit the Meals on Wheels-Anderson. This organization is very important to my family and I since we have supported and volunteered for Meals on Wheels for nearly two decades. This organization has had a significant impact on the elderly and those incapable of providing food for themselves. It is my hope that this project will improve the functionality and safety of the Meals on Wheels-Anderson operation.

This project will consist of acquiring/building a new sign, installing flood lighting, and building benches to aid the primarily elderly citizens who volunteer. Due to this demographic, I have also chosen to provide an Automated External Defibrillator (AED) and training course for staff members in case of emergencies. These additions will also accommodate those groups which utilize the building as a meeting space. I am also planning to build an elevated herb garden to enhance meal preparation, which will assist in cost reduction and nutritional value of the meals.

I have estimated that the cost of this project will total around \$10,000. Though this is a substantial amount, the materials I have chosen will endure despite time and weather. These additions are well worth the cost for providing safety, productivity, and sustainability to Meals on Wheels. Therefore, I ask for your support of this Boy Scouts of America project, and your local Meals on Wheels organization. Please consider making a monetary donation, which will go directly into the project production.

Thank you in advance for your donation and support of this great organization.

Yours in Scouting,

Jordan Britenburg

Dear Prospective Seabrook Donor List,

My name is Jordan Britenburg, a Life Scout in Boy Scout Troop 97 located in Anderson, South Carolina. In 2009, you generously supported my execution of the Seabrook Project, a United Way program, to the benefit of our local Meals on Wheels organization. Now, as a hopeful Eagle Scout, I have proposed an Eagle Scout Service Project which will benefit the Meals on Wheels-Anderson. This organization is very important to my family and I since we have supported and volunteered for Meals on Wheels for nearly two decades. This organization has had a significant impact on the elderly and those incapable of providing food for themselves. It is my hope that this project will improve the functionality and safety of the Meals on Wheels-Anderson operation.

This project will consist of acquiring/building a new sign, installing flood lighting, and building benches to aid the primarily elderly citizens who volunteer.
